SYNCRO BTG

ART. NO. 9929-15 100 ML **ART. NO. 9929-16** 150 ML

BOND TECHNOLOGY GLUE.

Thin waterbased glue provides both excellent bonding and easy removal! Normally with waterbased glues the glue is very difficult to remove from the blade and sponge. But with the unique new formula of Syncro BTG (Bond Technology Glue), these problems are over! Syncro BTG contains a unique combination of rubber and glue that is thin, soft, and flexible. It spreads very easily in a thin and even layer on the blade and rubber. It provides excellent attachment, but when it is time to remove the rubber from the blade, the glue and rubber come off very easily. Syncro BTG is available in both 100 ml with sponge and 150 ml with brush.

AQUA ENERGY GLUE

ART. NO. 9929-00 150 ML

The ITTF has asked manufacturers for safe table tennis, and STIGA, one of the leaders in table tennis technology, has delivered. STIGA Aqua Energy glue will allow all players to meet the coming ITTF requirements without compromising their games. With a built-in brush spreader.

LACQUER

ART. NO. 9928-00 125 ML

STIGA lacquer is the best way to protect the surface of your blade from the damage caused by repeated speed gluing. It seals the wood thus eliminating any chance of splintering when you change rubber.
